NanoHorizons Consolidates Operations in Move to New Facility

Headquarters Designed to Showcase SmartSilver™ Antimicrobial Brand and Facilitate Future Growth

State College, PA—November 23, 2009. NanoHorizons Inc., global provider of proprietary nanosilver antimicrobial solutions marketed under the SmartSilver™ brand, today announced that the company has consolidated its corporate offices, manufacturing operations, and laboratories into a new facility located in Bellefonte, Pennsylvania. In addition to providing space needed to meet current requirements, the headquarters building is also designed and equipped to enable future production growth and accommodate expanded research, development, and testing activities.

“This move allows us to take full advantage of the efficiencies of integrating all operations under one roof,” states David Woodle, Chairman and CEO of NanoHorizons. “In addition, it also affords us the opportunity to validate how our customers in the textile, health care and industrial markets use

SmartSilver antimicrobial protection to enhance their products. We have both a state of the art R&D lab and dedicated Bio-lab to support broad integration testing and new application development.”

Originally founded by Penn State University scientists, NanoHorizons is a successful graduate of the incubator program for start-up companies supported by CBICC (Chamber of Business and Industry of Centre County). “We appreciate the on-going assistance given to us by CBICC during our incubator stage and with this key growth transition to a new facility,” says Woodle. “We look forward to welcoming our customers and shareholders to our new home.”

About NanoHorizons Inc.

NanoHorizons Inc. (www.nanohorizons.com) is a leader in the emerging, cutting-edge field of practical nanotechnology for a broad range of consumer, commercial, and industrial applications. The company’s nanoscale silver antimicrobial additives are developed and manufactured entirely in the US and marketed globally to customers in the apparel, health care, and coatings and plastics industries under the SmartSilver™ brand (www.smartsilver.com). SmartSilver uniquely offers permanent, safe and cost-effective bacterial control in a variety of products, including natural and synthetic fibers and fabrics as well as coatings, foams and polymer applications. SmartSilver additives are EPA registered and Oeko-Tex approved. NanoHorizons’ experienced team of scientists, engineers, and operational managers provide product research, design, development, laboratory testing, manufacture, and technical and sales support. The company is privately held and headquartered near Penn State University in Bellefonte, Pennsylvania.
